On my model train layout I wanted a construction yard were a new house was build. Since the type of house and construction I was looking for is not available as a kit, I decided to design and print it myself.

It's not perfect and contributions are more then welcome, but I do hope it inspires some!

Print Settings

Printer Brand:

Prusa

Printer:

I3 MK3S

Rafts:

No

Supports:

No

Resolution:

100

Infill:

15

Filament:
Prusament PLA Grey

Notes:

I used Prusament Grey PLA because I had some in stock, but I do encourage you to experiment with other materials/colors. The same goes for the 'ironing' setting in the Prusa Slicer. I didn't use it while printing this design, but it could pay off to enable the feature!
