Summary

This is a rugged track bumper designed for Atlas Code 100 HO scale track. It sits down in the ties.

1.43 hrs	2 pcs	0.20 mm	0.40 mm	PLA	11 g	Prusa MK3S/S+ & MMU2S

These are track bumpers similar to those in Chicago's Metra Station. Painting or decaling with black stripes would make them more prototypical.

There are two parts in the model file. I printed the small part red and the main part orange yellow and glued them together.

I supported only the outside edges of the body part when printing.
