Summary

G-Scale 1:29 20" Container Box 210mm Long

Toys & Games > Vehicles

Tags: container gscale

A simple print for your G-Scale Garden Railroad! Print the box any color you want then print the hardware gray and glue them on! I used a Prusa i3 MK3S+ and the print time is about 36 1⁄2 hours so you have to be patient.

Side Note: this one won't attach to my 20' chassis; the chassis will fit my 212mm container box on my page!
