Summary

This crossbuck horse fence is a scale model of the one I build for my yard.

Tags: scale trains horse fence ho crossbuck

This is a 0.03 scale model of the fence I built for my yard, which is not exactly HO or O scale. I chose this scale because it looks nice. If you want something different you can adjust this in your slicer.

The fence panels and feet are printed separately and press-fitted together. The end foot has a hole to mate with the next panel.

After publishing this model I decided that round feet look nicer, and are stable enough. I also added a single fence panel.
