Model train of BB63000 N scale

used on French railways SNCF

No engine installed
Using boggies N scale found on amazon or internet. Bogies found on :
https://www.amazon.fr/dp/B08RRXR8CY/ref=pe_27091421_487052621_TE_item

Uses PLA, except here for amber part made of PETG (could be PLA as well, but I had not that colour)
3 main parts pressed together
White handlebars pressed and hold with a bit of glue.
Will be associated to wagons and a truck which will hold the engine and push.
Gray part, white parts and orange parts printed with no support.
Supports only for the black part (roof).
