0.44 hrs	2 pcs	0.15 mm	0.40 mm	PLA	2 g	Prusa MK3/S/S+

Hobby & Makers > Automotive

Tags: train nscale

This is a modell for a “pusher” train for the BB63000.
It necessitates a Kato N gauge motor.

Scale 1/160 , N

multi part model, made of 3 colours.

Original drawings made with Designspark mechanical, avail on request.
The parts are 10x scale, should be divided by 10 when using prusa slicer.
Made of PLA, except orange part made of Prusa PETG because I had it.
Black tampons given as STl but not printed on the photo, because of curvature problems.

Prints easily, no support. Necessitates a bit of glue for parts and ramps hold.
